Izmir

BFPO Post

The BFPO service to Izmir is contracted through the Turkish Airlines. Post is received twice a week at the Izmir Cargo facility of Turkish Airlines and is collected by the NSE. You can receive parcels up to 30 Kg from UK, but to send mail back to UK, NSE provides letter only service. It is advisable to bring some stamps from UK in case you need to post anything back to UK through the BFPO system. There may be some restrictions on the post you can receive, more information can be found at the below website:

<https://www.gov.uk/bfpo>

Personal mail should be addressed to:
(Number & Rank if appropriate / necessary) Name
UK NSE
Izmir
BFPO 599 or BF1 5FZ

In accordance with standard BFPO practice, do not use “Turkey” in the address; because your mail might not go into the BFPO system, but rather into the normal overseas mail system, adding even longer to the delivery times.
