CLO Update

September has arrived, the children have gone back to school (well nearly all of them) and the community has grown over the summer break. We've had some successful lake visits, an amazing night was had by the ladies at the Ulm wine tasting festival and everyone is feeling refreshed from their summer holidays. Thankyou to those who have filled out the things to do proforma we've had some excellent feedback and hopefully this will be formulated soon onto ejsu.net.

The community feedback questionnaire has highlighted where the community feels improvement is needed and what is working well. We will send it out again towards the end of the year to gauge how we are improving as an NSE and community

Going forward as a community we've had a suggestion that a monthly walk followed by coffee and cake would be a great way for the spouses to keep in contact. Watch your emails/WhatsApp group for details to follow. There will also be a book club starting this month, all welcome, details on page 3.

Stay safe

Sarah

NSE Ulm Office Hours

Mon—Thur 0830—1200 1230—1700

Fri 0830—1200 1230—1500

CLO Hours

Mon—Thur 0900—1300

This month we welcome :

News from the HNLO

The next Kulturnacht will take place on 18th September 2021.

At the Kulturnacht about **500 creatives** will present the cultural scene of **Ulm and Neu-Ulm** at more than **100 venues!** A detailed programme including all the events organised by artists and various cultural institutions will be available by the **end of July 2021**. The programme allows you to create your individual Kulturnacht, to search for artists and venues, and to get an idea of what to expect of the Kulturnacht - open air concerts, rock, pop and jazz, theatre performances, guided tours, dance performances or lectures in various locations throughout Ulm and Neu-Ulm!

There will also be a kid's programme at the Kulturnacht!

Please visit <https://www.kulturnacht-ulm.de/web/kulturnacht/index.php> to get a taste of the amazing program. Tickets can be purchased in every event location.

15 Sept	22 Sept
13 Oct	20 Oct
10 Nov	17 Nov
8 Dec	15 Dec

Ulm delivery times between 1000—1100

Can you Help ?

Have you been on a great day out ? Do you have a favourite takeaway? Do you have a favourite vet or doctor? The CLO is always looking for suggestions to share with the community. If you have collected a leaflet or have a suggestion please email the [CLO](#) or complete the tourist form [here](#)

QR Codes For Electronic Proof of COVID Vaccinations

German Apotheken (Pharmacists) are now the issuing QR codes for electronic proof of COVID vaccinations (as part of the EU COVID travel passport scheme).

Ordinarily this facility is only available to German Nationals or German Residents (with residence cards) it has been confirmed by HN that eligibility can be extended to members of the Force with NATO SOFA status.

Am I Eligible?

Vaccinated in Germany using German supplied vaccine via German doctor – in possession of Yellow International Vaccination Pass

Vaccinated in Germany using NHS supplied vaccine delivered by German doctor – in possession of Yellow International Vaccination Pass

Vaccinated by DPHC personnel using NHS supplied vaccines – in possession of NHS vaccination card

Vaccinated in UK prior to arrival in Germany - in possession of NHS vaccination card

Will I be charged?

Most Apotheke will not charge for the code. Some pharmacies do charge up to €18. Please check before requesting a code.

On arrival at the Chemist you will need:

- Your DPHC Letter giving details of when you were vaccinated
- Photo ID (mil/Defence ID card and passport) or German residency card
- A device with either Corona-Warn or CovPass Apps installed

The pharmacist will check your details and then either give you a piece of paper with a QR code for you to scan or ask for your phone/device and scan the QR code on their terminal.

Notes:

1. The Official German App linked to the EU27 COVID Vaccination Passport Scheme is CovPass; if you are intending to travel out of Germany then this will be App you will be required to scan at Airports (or similar) and is guaranteed to be accepted outside of Germany.
2. The Corona-Warn is primarily designed to be used as a Track and Trace/Warning App, however, is linked to the CovPass. It should work at airports etc but it is not guaranteed.
3. Please note that if you have the NHS App Track and Trace App installed and working then it will stop the Corona-Warn App from working (and vice versa) as both rely on Bluetooth connectivity.
4. If the Pharmacist does not give you a piece of paper with the QR code on it for you to scan then use another device to take a picture of each of the QR codes you get for each vaccine displaying in your App. That way, if you lose/break/replace your phone then you can re-scan this picture with the new device and it will automatically add back in your vaccinations to you App. (Otherwise you will have to go back to the Chemist and get another QR code).

iOS users who have an App store account registered to the UK will need to create a German account to download the specific German COVID-19 apps

Please see [here](#) for further information
